THE DAILY GLOBE

#### AND THE CONGRESSIONAL GLORE.

it surrendering my interest in the organ of a great political party. I cherished the purpose of great political party. I cherished the purpose of continuing the Congressional Globe, and, if possible, in time, t perfect it into a full history of the action of Congress, giving the debates accurately and fully with the proceedings—all slamped with the verity of an official record. From the passage in the letter of Gen. Washington, which I have quoted, it will be perceived that he thought this office might be achieved with that or realize newspance; and e mbined with that of a regular newspaper; and t is certain that the avidity of the public for hews of the less important kind, greatly con-tributes to give wings to the weightier matter

which may be talled congressional news.
Having succeeded in my purpose of perfecting the reports of the debates in congress and jets, and Magnetic Fluid, giving them the official stamp, I now propose to Mexican Mustans Linims nd them abroad, in connection with the news of the day, in such haste as shall outstrip full and accurate intelligence sent from the seat of Government in any other form whatever. It will even anticipate the scraps of news for warded to cities within two hundred and fifty warded to cities within two hundred and ally miles of Washington by telegraph. Be are the events thus transmitted are published in the morning papers, [for instance, of the city of New York,] the Globe containing them will have reached the post office of that city by the Express Mail of the previous night. The pro-cess by which this will be effected I now lay

I will have a corps of sixteen reporters in congress; each in succession will take notes during five minutes, then retire, prepare them for the press, put them slip by slip in the hands of compositors, and thus, while a debate is going on in congress, it will be put in type, and in a few minutes after it is ended it will be in print. I shall by this means be enabled to send by the Express Mail of 5 o'clock p. m. for the East, West, and North, and by that of 2 o'clock p. m. for the south, all the proceedings of congress up to the ordinary hour of adjournment. Thus the accurate debates of congress will reach the cities two hundred and fifty miles from the capitot before their daily morning pa-

pers are in circulation.

The miscellaneous news I shall be careful to gather from remote sections of the country by teiegraph. I will obtain from the Executive Departments, through official sources, the matters of moment transacted in them, and, thro-agents employed for the purpose, all the city news of consequence in sufficient time to be put into the Globe and mailed in the Express-Mail trains. In this way I hope to create a new era in the dissemination of news from Washington. Hitherto no newspaper has attempted to give authentic accounts of things done at Washingtoo before the public mind at a distance had received its first impressions from irresponsible telegraphic depatches, or by letter writers bi-

ased by peculiar views. Washington has now become so great a cen ter of political interest during all the year-the proceedings of the Executive Departments and the information collected by them even during the recess of congress is of so much importance to the interests of every section of the country —that I shall continue the publication of the daily paper permanently, with a view to be-o me the vehicle of the carliest and most cor-

teet intelligence.

It is part of my plan to reduce the price of the daily paper to half that of smaller and; paper and thus I mape to extend its circulation so as to invite advertisements. I will publish advertisements of the finventure. To subscribers to the cities I hope to submit such terms as will induce them to advertise their business in every riding chromathout the Union, where the Globe is sent daily under the granks of members

the Globe is sent daily under the granks of members of Congress, all of whom take it and some of them a large mumber of expirs.

The installation of a new Administration and a new Congress, portends much change in the course of public admirs as the result of the next seesion. Many vastiniterasts which were brought up in the last Congress with a member of giving bomestcades, and making every man freeholder who may choose to become one; the approximation of the Atlantic and Pacific occasion, the properties of the congress with a theorem one one; the approximation of the Atlantic and Pacific operating with old ones, conting up to be disposed of by new neiters on the secence at Washington.

To these elements of interest nauther is hisely to be introduced by the interposition of the agattones of Europe. After nearly forty years of peace in Europe there is an evident ecclessness that now seems trangh with tendencies therefore, and if was comes, in all like ilhood there will follow such universal change that the United States can scarcely hope to escape its vortex. Indeed from the events it is apparent that out for the congress with macle expectation.

The Daily Globe will be printed on face paper, double royal size, with an all type, il revier and unexparently at the congress with macle expectation.

The Daily Globe will also be printed on a social raticles to calarize but not too import on in the action of the agreem the action of public mind to words.

the Reporters. The speeches which members may
choose to write out themselves will, together will the

THE GLOBE:
THE OFFICIAL PAPER OF

CONGRESS.

AND NEWSPAPER FOR THE PEOPLE.
It will be seen by the annexed extract from a letter of Gen. Washington to David Stewart, dated New York, 17th March, 1790, that the idea of such a paper as I propose to make the Globe, originated in the mind of the Father of his country. He said:

Old It is to be immented that the editors of the different Gazettes in the Union do not more generally and more correctly [instead of stuffing their papers with scurriity and mensensical declaration, which few would read if they were apprised of the contents] publisk the delactions of the lates in Congress on all great national questions, would then come faily before the public, and stuff the hest dark for its ind ment. Seed is of us.

Licking Station, Kv., Dec. 17, 1846.

Mr. R. E. Shlikes:—I have the pleasure to inform you, that I have used, in my practice, your celebrated Vermifuge with the most happy results. I have formerly used Fahnestock's, but being persuaded to try yours, I have found it far supreor in every respect, and can say, without the fear of contradiction, that your Vermifuge possesses more virtue than any I ever used, and most cordially recommend it to the attention of the public. I will state a case where I gave one vial of your Vermifuge. My brothers child was pining and wasting to a mere skelleton. In 36 hours after I gave the Vermifuge, the enormous quantity of appears of six hunthe enormous quantity of upwards of six hundred worms were passed. The child, that was given up for lost, is now as well as any in the neighborhood.

GALLIFOLDS, OHIO, April 1, 1845.

This certifies that I have kept on hand, and used in my practice, R. E. Sellers' Vermifuge, foodle two past years. I am confident in saying it has not failed, in a single instance, to relieve children and adults troubled with worms; in many instances it has brought away large confident it is the hest worm. quantities. I am confident it is the best worm medicine in use. All that is required to give it reputation in any family, is to give it a fair trial.

PAMILY MEDICINES. GRAHAM'S STATION, Ohio, May 25, 1849.

Mr. R. E. SELLERS —I think it right, for the benefit of others, to state some facts in relation

to your excellent family medicines.

I have used your 'ermifuge largely in my own family, one vial frequently answering for expel-ling quantities (say 100 to 200) of worms form two children. I have also used your Liver Pills and Cough Syrup in my family, and they have, in every instance, produced the effect de-

Ma. SELLERS:—Having used your Liver Pills'
Cough Syrup, and Vermifuge in my family for
more than three years, I believe I am justified
in saying to the public, that they are decidedly
the best family medicines now in use. I will
never be without them, unless they cannot be
